

Updated Conference Programme*

SUNDAY, 28 SEPTEMBER 2014		TUESDAY, 30 SEPTEMBER 2014	
14.00	Exhibition set-up	09.00	Utilisation of oil shale extraction and processing residuals in production of cement: Jaroslav Stoupa, general manager, LSR Cement-NW, LLC (Russia)
16.00	Delegate registration	09.30	Achieving high substitution of alternative fuels – burner design consideration for optimum results: Con Manias, FCT International (Australia)
18.30	Cocktail reception followed by Welcome Dinner	10.00	Addressing quality issues in clinkers produced with alternative fuels: Arthur M. Harrison (UK)
MONDAY, 29 SEPTEMBER 2014		10.30	Coffee break
07.30	Delegate registration	11.00	Case study: Construction of the 2Mta Qizildas greenfield plant: Hasan Yalcinkaya, Norm Cement (Azerbaijan)
08.45	Welcome address from the conference organisers	11.30	Process optimisation case study: kiln optimisation with additional alternative fuel control: Juliano Arantes, ABB Switzerland (Switzerland)
09.00	Keynote address: Turkish Cement Industry: Mehmet Göçmen, chairman, TCMB	12.00	Powerful grinding additives based on molecular modelling: Dr Martin Weibel and Jorg Schrabback, Sika Technology AG (Switzerland)
09.30	Lafarge-Holcim merger – strategic alliances and survival in a globalised industry: Jean-Christophe Lefèvre-Moulenq, CM-CIC Securities (France)	12.30	Lunch
10.00	Evaluation of the externalities of the cement and concrete sectors: Philippe Fonta, Managing Director, Cement Sustainability Initiative (Switzerland)	14.00	Alternative solid fuels systems – successful applications using alternative fuels in Turkey: Luc Reiffel, Walter Materials Handling / ATS Group (France)
10.30	Coffee break	14.30	Case studies in raw mix proportioning, clinker formation and clinker cooling optimisation: Carsten Wiedmann, Thermo Fisher Scientific (Switzerland)
11.00	Bridging the continents – overview of the 3rd Bridge Project: Hakan Gurdal, Akçansa Çimento (Turkey)	15.00	Successful operation with the Bogiflex kiln gear drive: Nicolas Gouez, CMD Gears (France)
11.30	Rezzato and Devnya plant engineering and erection: the challenges and successes in realising new plant construction when combining European and Chinese technologies: Roberto Fedi, Italcementi (Italy)	15.30	Coffee break
12.00	Iranian cement sector: Dr Lotfali Bakhshi, Iran Cement Association (Iran)	16.00	Fan upgrade case studies – improving plant performance and reducing maintenance costs, power consumption and emissions: Laurent Tisserand, Howden (France)
12.30	Lunch	16.30	Case study - replacement of a rotating packer by a fillpac RC at Riebeeck West (South Africa): Wolfgang Schulte, Beumer (Germany)
14.00	Technical and environmental upgrade activities at Nuh Çimento: Hayrettin Şener, Nuh Çimento Sanayi (Turkey)	17.00	Attractive paybacks using modular ORC systems to capture low-grade waste heat below 300°C: Ercument Yildiz, Heatcatcher Ltd (UK)
14.25	Evolution of Turkish clinker and cement exports over the last 5 years: Mehmet Gurses, Sales Manager, Aslan Cimento (Turkey)	19.00	Cocktail reception followed by Gala Dinner and entertainment
14.50	Financing cement projects in emerging markets: Florence Bachelard-Bakal, EBRD (UK)	WEDNESDAY, 1 OCTOBER 2014	
15.10	Capacity and modernisation projects in Turkey: Oral Turesay, KHD Humboldt Wedag (Germany)	07.30-15.00	Visit to Nuh Çimento cement works
15.30	Coffee break		
16.00	200mg NO _x – beating the limits without costly SCR? Matthias Mersmann, aixergee Process Optimization (Germany)		
16.30	Air pollution control – advanced CFD design for high-performance bag filtration systems: Pietro Aresta, FLSmidth A/S (Denmark)		
17.00	Changing the way towers are kept clean: Jeff Shelton, Martin Engineering (USA)		
17.30	Drinks reception in the exhibition area		

*Conference programme is subject to change
