

All courses are run and managed via the CemNet Training website with tutors providing full support to students throughout.

Each course is complete with full documentation, course notes, etc.

No additional material is required other than a computer with an internet connection.

Courses may be taken at work or at home and at times that suit each individual student.

Successful students are awarded a Certificate of Merit from CemNet Training as evidence of their diligence and competency.

Further details on costings, course content, technical levels and course suitability are available via:

<http://Training.CemNet.com>

Note: all listed courses can be tailored as part of an exclusive corporate technical training programme, delivered either as tutor-led classroom-based or online. Please email for a quote.
