

2023 LIVE WEBINAR SERIES

Cemtech's monthly webinar is the best way to keep informed of the latest industry developments and technical advances. Each event is carefully programmed to cover key industry themes, cement manufacturing best practice and cutting-edge technologies.

Hear direct from leading technical experts and other cement industry stakeholders every month in this popular webinar series, hosted by International Cement Review.

Each Cemtech Live Webinar includes:

- Live presentations followed by interactive question & answer sessions
- Concise format that is easy to fit into your work schedule
- Coverage of all key cement production technologies

Registration is free – just visit **www.CemNet.com** for details of the next available webinar.

All registrants receive a copy of the webinar slides, recording of the event and certificate of attendance.

If you wish to present at a Cemtech Live Webinar, please send your title and abstract to:
sales@CemNet.com
