

Cementing a new future

8-11 February 2021

All times: London, UK

Register at: www.Cemtech.com/MEA2021

8 February 2021

SESSION 1: 08.00-10.00am (GMT)

Keynotes

- The MENA cement sector a message from Ahmad Al-Rousan, Secretary General, AUCBM (Jordan)
- World markets overview and 2021 forecast: Paul Roger, Exane BNP Paribas (UK)
- Strategic expansion and regional opportunities in west Africa: Yusuf Binji, BUA Cement Plc (Nigeria)
- Regional markets of Oman, UAE, Yemen and the Indian Ocean: Joey Ghose, Raysut Cement Co SAOG (Oman)

SESSION 2: 12.00-14.00pm (GMT)

Technology: general practice

- Technologies and services to support sustainable growth in the MEA region:
 Matthias Mersmann, KHD Humbolt Wedag (Germany)
- Virtual plant tour construction and technology advances at the new 20,000tpd
 Yamama cement plant: Juergen Dietrich, thyssenkrupp Industrial Solutions (Germany)
- Achieving record kiln operation through advanced condition-based monitoring: Sultan Al Duwaihi, Riyadh Cement Co & Saudi White Cement Co (Saudi Arabia)
- Lubricants and services for key machines in the cement industry: Klaus Holz, Fuchs Lubritech GmbH (Germany)

9 February 2021

SESSION 3: 08.00-10.00am (GMT)

Market reports

- Cement and clinker trade in Middle East & Africa: Ad Lightart, CDC (The Netherlands)
- South Africa's cement markets and sector challenges: Richard Tomes, Afrisam (South Africa)
- World energy market and dry bulk freight trends: Frank Brannvoll & Maria Vasyutenko, Brannvoll ApS (Denmark)
- Global aggregates strong growth prospects to 2030: Jim O'Brien CSR Consulting (Ireland)

9 February 2021 (continued...)

SESSION 4: 12.00-14.00pm (GMT)

Calcined clays

- New generation blended cements with DeOHclay®: Suat Çalbıyık, CIMPOR Global Holdings (The Netherlands) and Berkan Fidan, OYAK CCPG (Turkey)
- The economic case for calcined clays: Tony Hadley African Advisory
- D-Pozzolan® calcined clay technology unique and approved in the world's largest calcined clay production plant: Luiz Felipe de Pinho, Dynamis (Brazil)

10 February 2021

SESSION 5: 08.00-10.00am (GMT)

African markets and financial analysis

- Kenya cement market and post Covid-19 outlook: Jagdeep Verma, Holtec Consulting (India)
- Morocco case study constructing a 4.8km overland belt conveyor to transport limestone:
 Riccardo de Guio and Emanuel Bombasaro, Bedeschi (Italy)
- Financial ratio analysis for MEA companies: Dr Michael Clark, Whitehopleman (UK)

SESSION 6: 12.00-14.00pm (GMT)

Pyroprocess and alternative fuels

- D-Flame® burner high-quality clinker has its burner: Luiz Felipe de Pinho, Dynamis (Brazil)
- Case study condition monitoring for kiln inlet measurement systems: Siegfried Andräß, SICK AG (Germany)
- Best practice preparation of refuse-derived fuels for calciners and burners in Africa: Wolfram Zschiesche, Vecoplan (Germany)
- Increased efficiency with innovative high performance refractory castables and gunning products: Mayank D Kamdar, Lilanand Magnesites Pvt Ltd (India)

11 February 2021

SESSION 7: 08.00-10.00am (GMT)

Plant operations and optimisation

- Remote commissioning case study and remote services: Fouad Kammoun, thyssenkrupp Industrial Solutions (Germany)
- Blaine prediction using analytics: R Sandeep, M Bharatharaja, ABB India Ltd (India)
- The road to recovery: Karsten Horn, INFORM (Germany)
- Energy management for compressed air in cement plant a case study: Ankur Mittal, National Council for Cement and Building Materials (India)

SESSION 8: 12.00-14.00pm (GMT)

Clinker reduction and grinding

- Kuwait ball mill grinding project: Fernando Dueñas, Cemengal (Spain)
- Blended cement products and lower clinker ratio the way towards sustainability:
 Manoj Rustagi, JSW Cement (India)
- Clinker reduction and blended cements using fly ash: Robin De Beer, Jaycee (India)
