

SUNDAY, 2 JUNE 2024

14:00 Exhibition set-up

16:00 Delegate registration

MONDAY, 3 JUNE 2024

07:30 Delegate registration

09:00 Welcome address: Thomas Armstrong, Managing Editor, International Cement Review (UK)

09:30 Keynote: Indonesia's low carbon roadmap – Lilik Unggul Raharjo, chairman, Indonesia Cement Association (Indonesia)

10:00 Global cement industry: emerging trends and market forecasts

10:30 Coffee break

11:00 CEO Panel Discussion

- Company decarbonisation journeys
- Innovations across the cement & concrete value chain

12:30 Lunch break

14:00 Technologies for Asian decarbonisation: Dr Michael Clark, Whitehopleman (UK)

14:20 How to decarbonise cement while reducing costs and/or increasing output: Peter Hoddinott (UK)

14:40 Case study of cement plant reducing carbon footprint over a number of years: FLSmidth (Denmark)

15:00 Financing the cement decarbonisation roadmap: Antonio Della Pelle, IFC (Singapore)

15:30 Coffee break

16:00 Complexities and possibilities for clinker factor reduction: Balaji Karthik, Saint-Gobain Construction Chemicals (France)

16:20 Limestone calcined clay cement (LC3) - the first plant in Asia?: Dr Debojyoti Basu Roy, TARA Applied Research Centre (India)

16:40 The benefits of MVR: Phillip Hempel, Gebr Pfeiffer (Germany)

17:00 SCG decarbonisation strategies in cement and green business solutions: Monticha Khammuang, SCG Group (Thailand)

*Conference programme is subject to change

TUESDAY, 4 JUNE 2024

09:00 Alternative fuels and experiences with the hot disc combustion chamber: Holger Morch, Indocement (Indonesia)

09:20 Economic conversion of MSW into RDF: Eugen Becker, Eggersmann Anlagenbau GmbH (Germany)

09:40 Alternative fuels and the use of cement kilns to dispose of solid wastes: Lee Xiugang, Beijing Cirotan Environmental Protection Tech (China)

10:00 Success stories of AF use with KHD's Pyrorotor®: André Sybon, KHD Humboldt Wedag (Germany)

10:30 Coffee break

11:00 SIG: Industry 4.0 transformation journey: Reni Wulandari, SIG (Indonesia)

11:20 AI applications to enhance maintenance and process optimisation: Scott Ziegler, CemAI (USA)

11:40 Role of digitalisation in a modern cement plant

12:00 Autonomous process control for smart plants

12:30 Lunch break

14:00 Renewable energy fueling decarbonation, reliability and profitability: Maxime Ramael, Schneider Electric (France)

14:20 Cement plant and quarry EV transportation

14:40 Electrifying the cement industry's decarbonisation journey: Max Tschurtschenthaler, ABB (Switzerland)

15:00 HPGR grinding systems

15:30 Coffee break

16:00 Cutting-edge flue gas treatment solutions: Alberto Pedrinoni, Redecam Group SpA (Italy)

16:20 Low-thermal conductivity lining solution for cement rotary kiln: Dr Ye Hang, RHI Magnesita (Austria)

16:40 Bulk material handling and conveyor projects

19:30 Gala Dinner and entertainment

WEDNESDAY, 5 JUNE 2024

08:00 Cement plant tour (subject to availability)
