

SUNDAY, 16 JUNE 2019	
14.00	Exhibition set-up
16.00	Delegate registration
MONDAY, 17 JUNE 2019	
07.30	Delegate registration
08.45	Welcome address: conference organisers
09.00	Global cement sector outlook: Paul Roger, Exane BNP Paribas (UK)
09.30	Southeast Asian cement markets reviewed: Martin Wilkes, Independent Consultant (Indonesia)
10.00	Towards a circular economy: Wachirachai Koonamwattana, MD, Innovative Business Solutions, SCG Cement (Thailand)
10.30	Coffee break
11.00	LC3: a breakthrough for the cement industry: Laurent Grimmeissen, CEMENTIS GmbH (Switzerland)
11.20	Well underway towards a sustainable future: Aidan Lynam, Chip Mong Insee Cement Corp (Cambodia)
11.40	Indonesia cement sector developments and market dynamics: Rahman Kurniawan, PT Semen Indonesia (Indonesia)
12.00	Key innovation levers for cement and concrete companies in oversupplied markets: Peter Hoddinott, Independent Consultant (Indonesia)
12.30	Lunch
14.00	Philippines cement market: Manas Tamotia, LEK Consulting (Singapore)
14.30	Intelligent construction – a new EPC approach: Daliang Chi, CBMI Construction Co Ltd (China)
15.00	Efficient alternative fuel usage in modern cement plants – Thailand and Vietnam case studies: Alex Knoch, KHD (Germany)
15.30	Coffee break
16.00	India's roadmap to sustainable growth: Aparna Dutt Sharma, Cement Manufacturers' Association (India)
16.20	Complete installation for burning alternative fuels – best-practice case studies in Germany and Mexico: Luc Rieffel, Walter Materials Handling (France)
16.40	Best-practice preparation of refuse-derived fuels for calciners and burners: Wolfram Zschiesche, Vecoplan (Germany)
17.00	Alternative fuel systems and project implementation case studies: Tahir Abbas, Cinar (UK)
17.30	Evening reception in the Exhibition Area

TUESDAY, 18 JUNE 2019	
08.45	Global aggregates – bright prospects in Asia: Jim O'Brien, Jim O'Brien CSR Consulting (Ireland)
09.15	Cement in the South Pacific: Nouzab Fareed, Pacific Cement (Fiji)
09.40	Zero maintenance wear protection technology for roller presses: Kaushik Ghosh, Köppern (Germany)
10.05	Reduction of the clinker factor with the help of cement additives: Matthias Dietrich, Sika (Switzerland)
10.30	Coffee break
11.00 - 12.30	Optimising cement and ready-mix logistics: seminar led by INFORM (Germany)
11.00	Pyroprocess optimisation with Fons Delta clinker cooler and Dal filter-to-filter concept: Ugras Akay, Fons Technology (Turkey)
11.30	Low-grade lignite gasification: Kriengkrai Suksankraisorn, SCG Cement (Thailand)
12.00	Coal handling and grinding – understanding mill safety: Vincent Grosskopf, Coal Mill Safety (Singapore)
12.30	Lunch
14.00	Nepal's cement industry at a glance: Dhruva Thapa, Cement Manufacturers' Association (Nepal)
14.30	Using ORC technology to improve plant competitiveness in the market: Marco Donghi, CTP Team SRL (Italy)
15.00	Recent advances in raw meal control – a case study of clinker variability reduction: Peter Storer, FCT Combustion (Australia)
15.30	Coffee break
16.00	The innovative Super-Screw® belt-splicing technology to get rid of vulcanisation: Didier Lavalette, MLT (France)
16.30	New-generation refractories for cement kilns with alternative fuel systems: Pannawit Ngaochai, Siam Refractory Industry (Thailand)
17.00	Alternative fuel handling systems at HeidelbergCement (Germany), Aalborg Portland (Denmark) and Denizli (Turkey): Ulrich Hock, BEUMER Group (Thailand) Co (Thailand)
19.00	Cocktail reception followed by Gala Dinner and Awards. Sponsored by:
	
WEDNESDAY, 19 JUNE 2019	
07.30 - 17.00	Field trip to Kaeng Khoi (SCG Cement): quarry restoration, solar farm and innovation centre

*Conference programme is subject to change.
